

Introduction to Medical Aesthetics – One Day

This exciting One day course is exactly what you need to acquaint yourself with everything you need to know about the skin and how to achieve great results for your patients in a Medical Skincare environment.

Refresh your knowledge on Skin Physiology, learn how important the initial consultation is in treatment choice.

Understand how crucial the Fitzpatrick and Glogau Scales are in determining the most appropriate treatments for the best patient outcome.

Learn how crucial the use of the Woods Lamp is in enabling correct diagnosis and the effective treatment of various skin conditions.

A "hands on" practical session is included in this One Day Programme.
